

Secondary Screening Procedure

Secondary screening is necessary if the Seek Scan registers a person's temperature at or above 100.4°.

Sanitize hands.

Use a handheld IR thermometer to take temperature while holding the thermometer three millimeters from forehead.

Was the temperature:

Lower
than
100.4°?

Enter the Building and complete attestation.

100.4°
or
Higher?

Students: Wait to be escorted to the isolation room; a Parent or Guardian will be contacted for pick-up.

Staff: Leave the building and inform supervisor.
