

Screening Procedure

All persons entering this facility must complete an attestation of wellness and have their temperature read prior to the start of each day.

STEP 1: Sanitize your hands using the provided hand sanitizer.

STEP 2: Test your temperature using the VisioFocus® or Metris non-contact IR thermometer.
Is your temperature:

Lower than 100.4° → Goto **Step 3**
100.4° or **higher** → Goto **Step 4**

STEP 3: **Proceed to Work** and complete your attestation for today.

STEP 4: **Proceed to the Secondary Screening.** Please take your temperature again, following the secondary screening station instructions.
